

Dear Members of Bungan Beach SLSC..

The Club received some great news today.

This afternoon the club was officially advised that the application we submitted for a Government grant primarily to do the bathrooms, ramp (to get our Clubhouse building passed), the gym and the internal gyprock roof completed at around \$45,000 and we were successful in getting the monies.

The Clubs Committee as a whole has to be thanked for their persistence and hard work on this matter.

From what I know, it was Steve Reilly that brought the Government grant and deadlines information to the attention of the Committee, then Ken Trembath, Dave Sams, David Baldwin and Colin Rae worked very hard with the assistance of other Members to get the application done in a very professional manner to be forwarded on for consideration.

As mentioned earlier the whole committee was involved and should be really proud of their efforts.

Well Done to all concerned.

Thanks.
